

## Evergene Testing feedback 24/2/20

### Home page

#### 1. Footer:

a. FAQs, Terms of use, refunds and returns, privacy policy – these all need to be configured with pages or can all be on the same page

Pages are created already, you just need to link the pages.

**DONE**

Pages are linked.

The titles of the pages are all still terms of use.

b. Tests – this opens the page about 10cm below the top. Can it open from the top of the page. **DONE**

**APPROVED**

**Corrected**

c. General wellness, men's health, DNA etc, these should open the page with the tab selected. **DONE**

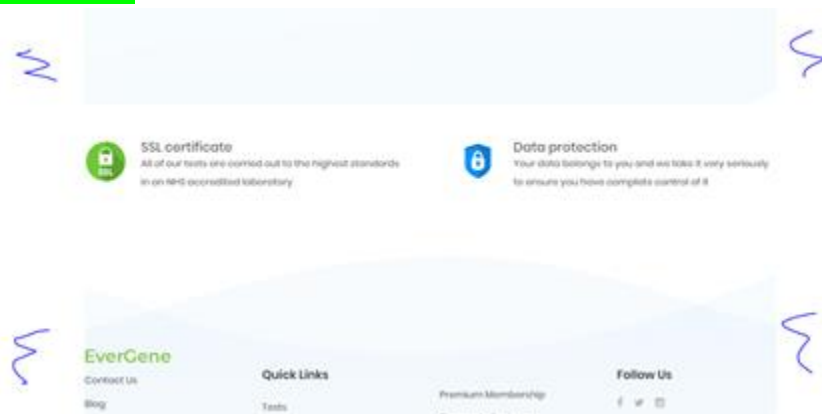

**APPROVED**

**Corrected**

2. The background (light blue) on home screen doesn't fill the screen. **DONE**

**APPROVED**

**Corrected**

3. The video section all looks a bit out of line. Also, the previous video player looked a lot better. Maybe a good looking button saying play is best here which opens the how it works page and the video starts playing automatically. **DONE**

**APPROVED**

**Corrected**

4. Remove 'meet our team' **DONE**

**APPROVED**

**Corrected**

5. Can we keep this bar but when you scroll down on it, the numbers increase from 0 to the final number (it used to do this). Can this be set to say 'Tests performed', 'infections detected' and 'abnormal results detected'. Also, can they be made to look a bit more impressive please – maybe something like the blue one below. We can provide symbols.

**DONE**

**Not dynamic.**

**Please see below screen**
